Director's Report to Shareholders

The Directors of your Company are pleased to present unaudited financial statements of the Company for the half year ended December 31, 2014.

Financial Results

Operating indicators	Half Year Ended December 31, 2014	Half Year Ended December 31, 2013
	(Rupees)	(Rupees)
Sales & Processing income	165,036,390	1,133,092,772
Gross (loss)/Profit	(247,247,652)	(351,911,539)
Pre Tax (loss)/Profit	(271,107,926)	201,721,601
Provision for Taxation	13,865,482	14,595,613
Earnings/(loss) Per Share	(13.55)	11.39

The period under review has also been proved difficult period. Your Company continued to be in the grip of challenges; power outages coupled with on-going financial impediments have obstructed the optimum utilization of production capacities. The driving force for this underutilization had been non-availability of working capital facilities. Due to unilateral blockage of our working capital lines by the banks, the required working capitals were not at our disposal and the Company could not efficiently purchase sufficient raw material to run the installed capacities at optimum level. This hindered the Company's plan to achieve the desired production targets which badly affected our sales turnover, export orders as well as profitability of the company. In order to keep our production units operational we were bound to arrange third party processing.

The debt amortization profile, higher financial cost and associated liquidity problems have forced the Company to consider restructuring of its debt obligations subject to reconciliation of financial obligations to ensure continued timely discharge of its commitments to its lenders. The debt restructuring process is being considered and in this regard matters are being taken with financial institutions. Once the restructuring is finalized it would improve the company's financial health and liquidity of the Company.

The learned single bench of honourable Sindh High Court in JM No. 1/2013 Titled "*United Bank Limited v Gulistan Textile Mills Limited*" ordered winding up of the company vide its order dated 20.12.2013. In response to our appeal, the Honourable Supreme Court of Pakistan vide its order dated February 25, 2014 has set aside the impugned judgment of Sind High Court and directed the Sindh High Court to decide the case on merit.

Future Outlook:

We have been conscious of the issues that are affecting our production and are committed to turn the Company into a profitable organization by implementing the restructuring process for better financial position, strengthening our operations through proficient acumen, improving manufacturing processes and offering better service to our customers. In spite of continued load shedding, the management is trying to implement its best efforts to ensure regain its growth, operational efficiency and optimum results for the Company and its valued stakeholders.

Acknowledgement:

We appreciate the efforts and with thanks place on record the continued support extended to us by our customers, suppliers and bankers. The valuable services rendered by our team of employees are gratefully acknowledged.

**Auditor's Report to the Members on Review of
Condensed Interim Financial Information**

Introduction

We have reviewed the accompanying condensed interim balance sheet of **GULISTAN TEXTILE MILLS LIMITED** as at **December 31, 2014** and the related condensed interim profit and loss account, condensed interim statement of comprehensive income, condensed interim cash flow statement and condensed interim statement of changes in equity together with the notes forming part thereof (here-in-after referred to as the interim financial information) for the half year then ended. Management is responsible for the preparation and presentation of this interim financial information in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on this condensed interim financial information based on our review. The figures of the interim profit and loss account and interim statement of comprehensive income for the quarter ended December 31, 2014 and 2013 have not been reviewed, as we are required to review only the cumulative figures for the half year ended December 31, 2014.

Scope of Review

Except for the matter stated in paragraph (c) below, we conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of the persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Adverse conclusion

- a) The condensed interim financial information has been prepared on going concern assumption. The interim condensed financial information of the company for the period ended December 31, 2014 reflects loss after taxation of Rs. 257,242,444 and so as of that date it has accumulated losses of Rs. 6,453,715,341 which resulted in net capital deficiency of Rs. 5,682,481,682 and its current liabilities exceeds its current assets by Rs 7,110,064,160. Furthermore, the company has been unable to ensure timely repayments of debts owing to financial institutions due to liquidity problems and short term finance facilities have expired and not been renewed by banks. These events indicate the existence of a material uncertainty that may cause significant doubt about the company's ability to continue as a going concern and therefore, the company may not be able to realize its assets and discharge its liabilities in the normal course of business. In our opinion, the going concern assumption used in the preparation of these condensed interim financial statements is inappropriate.
- b) As explained in note 11, the company has not accounted for markup / interest to the extent of and approximate to Rs. 331,251,250 (June 30, 2014: Rs. 662,928,297), Rs. 42,756,747 (June 30, 2014: Rs. 59,464,499) and Rs. 32,038,207 (June 30, 2014: Rs. 62,996,386) on outstanding balances in respect of short-term borrowings, long-term financing and liabilities against assets subject to finance lease respectively after going into litigation with banking companies and financial institutions. Had the company accounted for markup / interest, the loss for the period would have been higher by Rs. 406,046,204 (June 30, 2014: Rs. 785,389,182) and consequently the aggregate amount of accrued markup (including previous unaccounted markup) would have been increased by Rs. 2,263,635,365 and aggregate accumulated loss would have been higher by same amount.
- c) As mentioned in note 7, 8, 9, 10, 11 and 12 confirmations and period end bank statements were not available in respect of cash with banks, long-term financing, liabilities against assets subject to finance lease, local Lcs payable, foreign bills payable, accrued markup / interest, and short-term borrowings respectively, due to pending litigations with these banks / financial institutions as referred in note 13.1.1.

Adverse Conclusion

Based on our review, because of the significance of the matters referred in the preceding paragraphs (a) to (c) and its effect on the interim financial information we believe that the accompanying interim financial information do not give a true and fair view of the state of company's affairs as at 31st December 2014 and of the loss, comprehensive loss, its cash flows and changes in equity for the half year ended December 31, 2014.

**Selected Notes to the Condensed interim Financial Statements (Un-audited)
For the half year ended December 31, 2014**

1. LEGAL STATUS AND NATURE OF BUSINESS

- 1.1 The Company was incorporated on February 02, 1966 in Pakistan as a private Company limited by shares and was converted into public limited Company on April 11, 1966. The shares of the Company are listed at Karachi and Lahore Stock Exchanges in Pakistan. The registered office of the Company is located at 2nd Floor, Finlay House, I. I. Chundrigar Road, Karachi.
- 1.2 The Company is principally engaged in the manufacture and sale of yarn, fabrics and other ancillary products. The manufacturing units are located at Samma Satta, Tiba Sultanpur and Feroz Wattwan.

1.3 Going concern assumption

The Company has earned a net loss after tax of Rs. 257.242 million and as on the said date its current liabilities exceed its current assets by Rs. 7,110.064 million and its accumulated loss compute to Rs. 6,453.715 million. As explained in note 13.1.1 of these financial statements the Company is in litigation with several banking companies and financial institutions as a consequence these banking companies and financial institutions have blocked and curtailed the working capital lines of the Company and froze the funds in bank accounts, rendering the Company not being able to operate in its normal course due to the liquidity crisis and has resulted in losses. Further as explained in note 13.1.2 a petition for the winding up of the Company had been filed in the Honorable Sindh High court. The Honorable Sindh high court through its order no J.Misc no. 1 of 2013 dated December 12, 2013 had ordered the winding up of the Company. Subsequently the Honorable Supreme Court of Pakistan vide its order dated February 25, 2014 has set aside the impugned judgment of Sindh High Court and remanded the matter. These conditions along with adverse key financial ratios and the pending litigations with the banking companies and financial institutions indicate the existence of material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern and therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business. These financial statements, however, have been prepared under the going concern assumptions based on the following mitigating factors as indicated in note 1.3 of the annual audited financial statements of the Company:

- (a) the management of the Company is negotiating an amicable settlement of the pending litigations with the banking companies and financial institutions. Series of meetings in this regards have also been held and the matter is being persuaded aggressively with the banks and financial institutions. The Company has appointed leading financial institution as the restructuring agent and also has agreed an indicative term sheet engulfing the principal terms and conditions of the restructuring with the said banking companies and financial institutions. As per the indicative term sheet the banking companies and financial institutions will release the blocked working capital lines and raw material in order to run the operations smoothly;
- (b) The management has prepared an eight years future plan showing profitability;
- (c) The Sponsoring Directors have given a written commitment stating that they will provide out of Private Sources working capital as required by the Company;
- (d) the management have made arrangements whereby third party cotton is being processed against processing fee for utilization of unutilized capacity in spinning segment;
- (e) the management has also undertaken adequate steps towards the reduction of fixed cost and expenses which are at various stages of implementation. Such steps include, but not limited to, rightsizing of the man power, resource conservation, close monitoring of other fixed cost etc. The management is certain to generate sufficient savings as consequences of adopting all such measures;

The management anticipates that above steps will not only bring the Company out of the existing financial crisis but also contribute significantly towards the improvement of the Company's financial position in the foreseeable future.
